

Colorado Rifle Club F CLASS

A year of shooting has come and gone. F CLASS at Colorado Rifle Club is picking up, but I am looking to grow it more and get more shooting enthusiasts involved. We are adding a couple new categories this year for the 1000 yard matches and they will be called F Bench and F Practical in F/TR and F Open. F Bench is aimed for those that can't lay prone for an extended amount of time and is open to anyone. F Practical is for those wanting to come out with their hunting rifles, PRS rifles etc. Just no muzzle brakes. One other exciting bit of news for 2024 matches is that we have a goal to have our electronic targets running, which means no more pit service.

Come on out to the clinic below and see what f class is about and the new categories.

F CLASS is shot from 600 yards and 1000 yards.

We held a beginners F CLASS Classroom clinic in 2023 and got a good response from it but not too many came out to try it. Not sure why but we are looking to expand this class this year for 2024. Our objective this year is to lower the classroom time and get out on the range to have the shooters shoot and get their questions answered out on the range.

April 27th will be the date of this clinic and registration for it will be through practiscore. **Registration opens 1/30/24**. You will need a minimum of 50 rounds to shoot. It will cost \$10, **non-refundable**. You must have a practiscore account. If you don't have one, it is easy to register and get an account. You don't get spammed by registering. The registration link is here <https://practiscore.com/colorado-rifle-club-f-class-clinic/register> **No day of registering**. When putting in Payment information, don't forget to put in zip code.

You will need to pick what category you will be shooting when registering. This will help me get people squadded together. See the categories below.

The class will start at 8am and have roughly 2 hours of class time in the clubhouse.

This time will be used to go over basic rules, how to pull and mark targets and any questions before heading to the range. Once we go to live fire, you will pull and mark targets to know how it's done.

All shooting will be done from 600 yards. We will have instructors on the line to help you, and instructors in the pits to help you.

Our instructors have been shooting F CLASS for many years and are very helpful. They will help you get on target and give some pointers to you.

F CLASS doesn't allow muzzle brakes, suppressors are ok. The class will have 4 different classes.

F/TR and F Open/ Practical- which both are shot prone.

F/TR Bench and F Open/Practical Bench- both will be shot from the benches.

F/TR is only .223 or .308 and is shot off a bipod or sand bag or sling and rear bag.

F Open/Practical is any caliber up to 35. Shot off front rests or bi pods or sand bag or sling and rear bag

For all the 1000 Yard F CLASS matches in 2024, there will be F CLASS Prone and F Bench shot. All registration will be at https://practiscore.com/clubs/colorado_rifle_club_f_class and the match program will be on the club calendar on the corresponding dates.

The first 1000 yard F Class match is April 20th. Any and all are welcome to come shoot before the clinic also.

Come out and give it a try. You will get hooked. You can email me at mdpeetz.fclass@outlook.com with any questions you may have.
